

Butterfly Talk

at Howbery Park

Speaker: **Richard Soulsby of HR Wallingford**

Date: **Wednesday 26th March**

Time: **13:00pm**

Fountain Conference Centre

A chance to find out what butterflies can be seen around our beautiful site, based on regular observations since 1995.

- ◆ What species do we have here?
- ◆ How can you recognise them?
- ◆ Where are the best places to see them?
- ◆ Are their numbers increasing or decreasing?

Plus a look at a common question: "How long do butterflies live?".

This talk is open to the whole of Howbery Park (and beyond), so please encourage your friends to come along.

To book a place, please email I.Chandler@hrwallingford.com
